January 29, 2014

### **The Data:**

Data sets have been collected from three sources.

- 1.

### **The Proposal:**

The main research question is the following:

Should an NFL team, in the 4th quarter of their possession, go for a first down or punt the ball to the opposing team? Which action will give them better odds of scoring? Which action will give them better odds of winning the game?

### **Figures and Table Titles:**
