

# Slide 1

Introduce question(s) you are seeking to answer (whose mind are you going to change?)

## Slide 2

Explain the data you chose to answer these questions and why it is relevant.

## Slide 3

Show your answers to the questions, which are your final figures and/or tables. You should have the figure titles from your research proposal and now you should have the captions complete for every figure.

## Slide 4

Show your answers to the questions, which are your final figures and/or tables. You should have the figure titles from your research proposal and now you should have the captions complete for every figure.

## Slide 5

Show your answers to the questions, which are your final figures and/or tables. You should have the figure titles from your research proposal and now you should have the captions complete for every figure.

## Slide 6

Show your answers to the questions, which are your final figures and/or tables. You should have the figure titles from your research proposal and now you should have the captions complete for every figure.

## Slide 7

Show your answers to the questions, which are your final figures and/or tables. You should have the figure titles from your research proposal and now you should have the captions complete for every figure.
